## Player's Registration

First name:	<input type="text" value="Barack"/>
Last name :	<input type="text" value="Obama"/>
Date of birth dd/mm/yyyy :	<input type="text" value="04/08/1961"/>
Enter a valid e-mail :	<input type="text" value="b.obama@whitehouse.com"/>
<input type="button" value="Validate"/>	

When you start the game for the first time, you need to give your name, date of birth and e-mail which could be used in a further development such as telling the player about new updates.

As these informations are recorded in the database, you only have to give them once.

You are then introduced to the game with a welcome message explaining you all the functionalities that you can enjoy (see below).

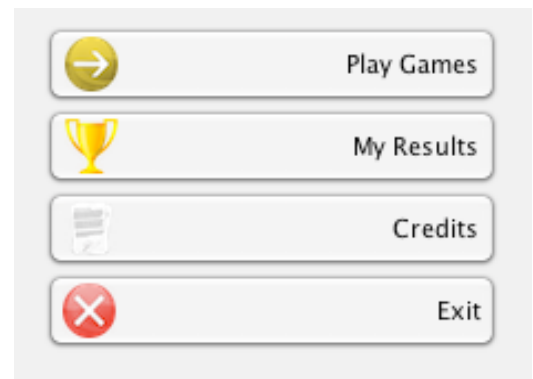

## Homepage

If you are already registered or have just registered, you face the homepage where you can choose to play one of the three mini-games, to see your performance or the credits and finally quit the game.

If you decide to play a game, specific instructions will be given to you with a beautiful background representing a famous landscape or monument having a link with the English culture. Shield your eyes !

## Ranking

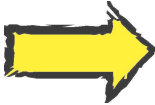

On this page you can consult the top five results you realised in each game which are stored in the database.

## Translation Game

In this game you have to translate 10 technical words from French to English, each correct answer bringing you 2 points : when you finished filling the boxes, just click on the button « Send » to have a correction and then on « End » to end the game and to have a mark corresponding to your score (a right answer is colored green, a wrong answer is colored red).
